STUDENTS

Release of Directory Information

A. Directory Information

Unless a parent or eligible student (a student 18 or older) has opted out of such disclosures using Attachment I to this regulation, certain information contained in a student’s educational record which has been designated by PWCS as directory information, may be released without parental consent, as provided in this regulation. Under federal law, directory information means information contained in an educational record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, the following items:

1. Name of student (includes former students);
2. Date and place of birth;
3. Dates of attendance;
4. Participation in officially recognized activities and sports;
5. Height and weight, if a member of a school’s athletic team;
6. Degrees, honors, and awards received;
7. Grade level; and
8. Photograph(s) and video of students, whether hardcopy or electronic.

Under federal law, directory information may not include a student’s Social Security number or Student ID number.

B. Consent to Release Student Contact Information

Under Virginia law, schools may not release a student’s telephone number or home or email address without the written consent of the parent/eligible student. PWCS principals are frequently asked to provide such contact information to third parties with a legitimate need to contact the student, such as school-sponsored parent groups, booster clubs, vendors selected to provide school pictures, graduation gowns, or other third parties who need the information for school-related activities. Parents/eligible students will be advised on the method by which they may opt-in to the release of student contact information or may contact the principal for such information.

C. Request for Release of Directory Information

A third-party request for release of directory information shall be submitted to the principal (or designee), the appropriate Level Associate Superintendent (or designee), the Director of Student Services (or designee), or the Associate Superintendent for
Communications and Technology Services (or designee). While student records and the personally identifiable information (PII) contained in such records are confidential, directory information may be released without written parental consent to school officials with legitimate educational interests in such records or PII, to law enforcement authorities to assist school personnel in student disciplinary matters, as well as to colleges/universities, scholarship providers, prospective employers, alumni publications, parent volunteers, PWCS-approved parent organizations, elected public officials, military recruiters, school officials with legitimate educational interests, and to the news media. Additionally, directory information can be used in School Division publications (both print and digital) for the purpose of, but not limited to, publicizing school activities and/or student academic, extracurricular, or athletic participation.

Note: School officials with legitimate educational interests may also be granted access to student educational records without parental consent in certain limited circumstances provided by federal law. A school official with a legitimate educational interest is a person employed or contracted with by the School Division as an administrator, supervisor, instructor, or support staff member to provide services ordinarily provided by the School Division (including but not limited to health or medical staff or consultants, therapists, attorneys, law enforcement unit personnel), or a person assisting another school official in performing his or her professional responsibilities. A school official has a legitimate educational interest if the official needs to review an education record or the PII contained therein in order to fulfill his or her professional responsibility to PWCS.

D. School-based instructional staff can use directory information in approved web-based applications (as per Regulation 295-1, “Computer Systems and Network Services – PWCS Responsible Use and Internet Safety Policy”) when sharing classroom communications, including but not limited to class reports, class interactions, discussions, class comments, or related videos/photos that are shared with classroom parents/guardians when using the applications.

E. Release of directory information shall be made only under the following conditions:

1. The parent or eligible student has not requested nondisclosure of such data, by executing Part A of Attachment I to this regulation. If a parent/guardian or eligible student does not wish to have the student’s directory information released to the groups/individuals listed in Section B of this regulation (other than military recruiters), it is the eligible student’s or parent’s/guardian’s responsibility to execute Part A of Attachment I to this regulation and submit it to the student’s current school.

2. The Superintendent (or designee), or the principal (or designee) believes that the release of directory information is in the best interest of the student(s), the individual school, and/or the School Division.
3. 4. The directory information will not be used to (i) advocate the election or defeat of any candidate for elective office, (ii) to advocate the passage or defeat of any referendum question, or (iii) to advocate the passage or defeat of any matter pending before the Prince William County School Board, Prince William Board of County Supervisors, the General Assembly of Virginia, or the Congress of the United States.

5. To law enforcement officials or emergency responders, when the request is for information in connection with their assigned duties.

6. To public officials, other than law enforcement officials or emergency responders, when the request is only for student names, photos/videos, and honors or awards.

7. To PWCS approved sports or curriculum-related organizations, parent volunteers, or approved parent groups, when the request is only for student names, extracurricular activity membership, photos/videos, and honors or awards.

8. To the news media, when the request is only for the purpose of publicizing school activities and/or student academic, extracurricular, or athletic participation, when the request is only for student names, photos/videos, and honors or awards.

In such cases, the Associate Superintendent for Communications and Technology Services (or designee) will ensure the proper selection and forwarding of the directory information.

The ability to access this system will also be made available to new parents/guardians and eligible new students.
