

USED TEXTBOOK VENDORS

Used textbook vendors are provided to assist in obtaining textbooks at a lesser price and assist schools choosing to sell outdated textbooks. It is recommended that quotes be obtained. It is important to remember that these vendors provide a "used" textbook service; they buy their products from schools that no longer have a need for these materials. When buying used textbooks you may receive books with some highlighting, underlining, or marginal notetaking especially with college-level texts (e.g., those used for our AP courses). If this is not acceptable to you, inform the sales representative before completing your purchase. The books are priced based on condition (fair, good, excellent) of the book.
