

## Local Tuberculosis (TB) Information and Testing Locations

As mandated by the Code of Virginia, § 22.1-300, as a condition of employment, every public-school employee shall submit a certificate, signed by licensed physician or by a registered licensed nurse, certifying that they appear to be free from communicable tuberculosis (TB). The following provides some additional guidance on obtaining a TB result.

- **WHO CAN PERFORM THE TB SCREENING/TESTING?** Candidates may obtain the medical statement from their own physician, a health clinic, or any medical facility that performs such services and meets the medical credential requirements.
- **TYPES of SCREENING/TESTING:** The licensed physician or registered nurse may require a TB risk assessment (questionnaire), TB skin PPD test, X-ray, or other examinations deemed necessary. PWCS accepts *any* approved method, including the TB risk assessment.
  - Medical facilities that offer the TB risk assessment (questionnaire) may be able to perform the TB assessment in *one* visit. Local facilities offering the TB risk assessment TBs are highlighted below.
  - The TB skin PPD test requires *two* office visits, one to administer the skin test and a second visit, 48 hours to 72 hours later, to have the test read.
- **FORM:** The licensed physician or registered nurse may submit a statement on any medical office stationery or form that clearly identifies the assessor, their credentials, office location, and signature, as well as, the individual assessed, the result of the TB assessment, and *date* the assessment was completed.
- **DATE:** Negative TB results acquired within the last 12 months may be accepted.
- **COST:** Any costs incurred from this medical evaluation are at the *candidate's expense*.

**The following chart lists known PWC locations that offer the TB Assessment, by day of week. No appointment is necessary. Testing times, costs, assessment types, and locations are subject to change. Please call ahead to verify. Please notify our office at [hr@pwcs.edu](mailto:hr@pwcs.edu) if you identify any information that needs to be updated and/or if a medical organization is located in PWC that would like to be added to this list.**
