Modifications to Buildings, Equipment, and Grounds

The Prince William County School Board shall establish guidelines that enable Prince William County Public Schools to address modifications to school facilities, including buildings, grounds, and related equipment. Modifications to a facility restore/continue its physical and educational functionality.

Decisions pertaining to modifications will be made after considering that basic utility systems are not altered, thereby preventing normal use of such systems in the future, adequate funds are identified, and funds are not diverted from essential maintenance and repair. The future use of the facility or equipment shall be considered.

The Associate Superintendent for Finance and Support Services (or designee) is responsible for implementing and monitoring this policy.

The Associate Superintendent for Finance and Support Services (or designee) is responsible for reviewing this policy in 2015.

Adopted: July 17, 2007
