COMMUNITY RELATIONS

Public School and Educational Technology Foundations

In order to enhance educational opportunities for all students and to promote innovative programs in Prince William County Public Schools, the Prince William County School Board may establish public school and educational technology foundations.

Such foundations shall be established directly by the School Board, by a person so authorized by the School Board, or through a contract between the School Board and a non-stock, nonprofit corporation established for the express purpose of implementing a public/private partnership to implement public school improvement projects approved by the School Board and/or to expand access to, and improve the quality of, educational technology in the School Division. All public school and/or educational technology foundations associated with Prince William County Public Schools must be approved by the School Board and comply with all legal requirements set forth in Regulation 950.03-1, “Approval of Public School and Educational Technology Foundations.”

All initiatives or projects undertaken by any foundation associated with Prince William County Public Schools must first be approved by the Prince William County School Board as consistent with the goals and educational mission of Prince William County Public Schools, unless the School Board has expressly delegated the approval of such initiatives to the School Board’s designee by resolution, policy, or in a Memorandum of Understanding entered into between the School Board and the foundation.

The School Board has delegated to the Associate Superintendent for Communications and Technology Services the authority to approve all donors and sponsors, and all initiatives, programs, grants, and scholarships funded by or through the Prince William County Public Schools Education Foundation, with the exception of capital projects which must be approved by the School Board. The Associate Superintendent for Communications and Technology Services shall inform the School Board on an annual basis of all donors and sponsors, partnerships, initiatives, projects, grants, and scholarships approved by him or her.

No School Division officer or employee shall permit any foundation or corporation which has not met the requirements of Regulation 950.03-1 to undertake any project, activity, or operation associated with Prince William County Public Schools.

The Associate Superintendent for Communications and Technology Services (or designee) and the Level Associate Superintendents are responsible for implementing and monitoring this policy.

The Associate Superintendent for Communications and Technology Services (or designee) is responsible for reviewing this policy in 2020.
