FISCAL MANAGEMENT

Local and State Funds

Equipment Purchased for Vocational Education Usage

The Vocational Department shall be sent a copy of any order containing capital equipment purchased with Prince William County school funds, including bond monies, and earmarked for vocational education usage. When the order is paid, the Vocational Department shall be notified and a copy of the payment voucher sent to them.

Since State reimbursement can be claimed on equipment purchased for vocational education, this action is necessary in order not to overlook any possible revenue for which we may be entitled.
