INSTRUCTION

Student Assistance Program

The Student Assistance Program consists of two programs designed to offer substance abuse education for students and parents.

1. The Interschool Management of Problems Due to Alcohol, Chemicals, and Tobacco Program (IMPACT) is an after school program (8 hours), taught by school social workers for students who have violated the “Code of Behavior” with offenses in the area of alcohol or drugs. Students are referred by their administrators. Individual plans are developed with parents.

2. The Focus on Tobacco Program is a one day after school program (2 hours) designated to educate students about tobacco and its effects. The program is taught by school social workers and is an intervention for students who violate the “Code of Behavior” with tobacco offenses.

3. Specific program information can be accessed through the school administrators or the Office of Student Services.

The Associate Superintendent for Student Learning and Accountability (or designee) is responsible for implementing and monitoring this regulation.

The Associate Superintendent for Student Learning and Accountability (or designee) is responsible for reviewing this regulation in 2015.
