Activity Participation Before Testing Days

In accordance with School Board Policy 648.01, directors of student activities shall ensure student activities conclude by 9:30 p.m. on the day prior to PSAT, SAT, ACT, Advanced Placement, International Baccalaureate, and Cambridge scheduled test dates in the Division. Efforts to schedule activities after testing events shall be made to the greatest extent possible. When events conflict with tests, staff are prohibited from discouraging student participation in any way including, but not limited to, “sitting” players who arrive late, as a result of test participation, or not playing a student at subsequent events or contests for having missed a previous event or contest as a result of participating in tests. Any absences or portion of absences resulting from participation in testing shall be excused; no penalties of any kind can be given to students who miss a practice or contest as a result of participation in testing activities.

The Principal and Associate Superintendent for Student Learning and Accountability (or designee) are responsible for implementing and monitoring this regulation.

This regulation and related policy shall be reviewed at least every five years and revised as needed.
