INSTRUCTION

The Alignment of State Standards of Learning Review, Curriculum Development/Textbook Adoption

The importance of teachers using curricula and materials that are aligned to the Standards of Learning (SOL) is a major factor contributing to student achievement on the standards.

Curriculum development and revision shall be coordinated with the State cycle of curriculum revision.

To ensure that schools have access to textbooks and instructional materials that support the Standards of Learning, Prince William County Public Schools textbook adoption in SOL subject areas shall be conducted one year after the standards are revised if current materials have been on contract for at least six years.

The Director of Curriculum and Staff Development is responsible for implementing and monitoring this regulation.
