

Table 1 Occupational Therapy Activities BOARD 7

Occupational Therapy Activities BOARD 7

Sensory Keychains	Auditory Stimulation
Use an old key chain and place items that are safe with different textures on the keychain for the student to explore.	Read a book to your student. If your student is able to, have him/her assist with turning the pages.

*All of these activities might not apply to your child, choose the ones that you like. If you feel that none of the activities are appropriate for your child, please contact your Occupational Therapist.
