2025-2026 School Profile

Woodbridge High School, which opened in 1964, is a comprehensive high school of approximately 2,960 students located in a suburban community approximately 25 miles south of Washington, D.C. Woodbridge provides a challenging academic offering with an emphasis on college preparation, as well as a variety of excellent Career and Technical preparation programs, including Aviation Maintenance and Cosmetology. Woodbridge is also one of two high schools in PWCS to host the Advanced Placement Scholars program, and the Project Lead the Way engineering and computer science programs.

Woodbridge High School is fully accredited by the Southern Association of Colleges and Schools.

Definition of Curriculum

Prince William County Public Schools provides a range of courses from remedial levels to advanced placement, dual enrollment, and those meeting requirements for standard or advanced studies diplomas. Both vocational and academic courses are available, allowing students to prepare for college, enter the workforce after graduation, or pursue post-secondary training in various fields.

Specialty Program Information

Advanced Placement Scholars

A four-year college preparatory pathway focused on developing critical thinking, analytical abilities, and written, oral, and presentation skills. Students gain opportunities to analyze data, synthesize information from diverse sources, solve real-world problems, work independently and collaboratively, and communicate effectively in multiple formats.

Aviation Maintenance

Students learn to service airframes, power plants, and electrical systems while performing ground operations following Federal Aviation Administration (FAA) standards. They also practice lab safety, apply science and math to maintenance tasks, and use technical publications, forms, and records.

Cosmetology

Students develop the skills and knowledge necessary to pass the Virginia Board of Registered Professional Hairdressers licensing examination for entry-level jobs such as manicurist, salon receptionist, shampoo technician, and licensed cosmetologist.

Project Lead the Way

This nationally recognized program introduces students to college-level engineering and computer science through a four-year course sequence. Paired with preparatory math and science, the program culminates in a senior capstone project, where students collaboratively solve real-world challenges.

Reporting Class Percentile

All courses with Carnegie units of credit are used to compute GPA and percentile, shown on student transcripts. Starting with the class of 2022, PWCS reports class percentile instead of class rank. Courses are not evaluated on a pass/fail basis. Pass/fail grades awarded by other school systems shall not be used when computing the GPA unless the other school system can provide a grade corresponding to those awarded by PWCS. All students earning an Advanced Studies or Standard diploma are included in the senior class percentile.

Seven Period A/B Schedule

Woodbridge High School follows a 7-period schedule wherein each student takes seven 92-minute classes. Under this schedule, students can earn seven credits per year.
